

## **GSEZ OFFERED TWENTY MEDICALIZED AMBULANCES TO DIFFERENT HEALTH STRUCTURES IN ALL PROVINCES IN GABON**

The important donation was officially given during a ceremony held on the 02<sup>nd</sup> May 2018 at the New Owendo International Port.

The ambulance donation project has enabled 20 ambulances fully equipped to participate in efforts to improve Gabonese access to healthcare. These ambulances will be deployed in various health facilities to ensure quality and safety in the transportation of patients.

The objective is to improve the medical response by facilitating the transport of first aid teams for emergency interventions and the immediate care of patients upon access into those vehicles.

GSEZ has always placed sustainable development at the heart of its strategy and since its creation has led social actions in the 9 provinces of Gabon; social actions such as the construction of schools, dispensaries; the installation of water pumps and solar panels, donation of school and medical equipment, etc.
